

**A 4-day skills development course  
for those involved in brokering and managing  
multi-stakeholder partnerships**

**20 - 23 August 2019  
Canberra, Australia**

There is a growing demand in Australia and internationally across all sectors for greater competence in managing the partnering process in multi-stakeholder partnerships **more effectively and efficiently**. This is particularly so with the business, not for profit, government and education sectors increasingly seeking to work together to solve complex social and development problems. The **UN Sustainable Development Goals** has even dedicated one of the 17 global goals to **partnership**. **Partnership Brokers Training**, a unique and highly sought-after program provides those working in and on partnerships with frameworks, tools, techniques and skills development to build their confidence and competence as partnership brokers.

A **partnership 'broker'** is an **intermediary** building effective and innovative collaboration between partners. Partnership brokers can be either **internal** – responsible for negotiating or managing partnerships on behalf of their organisation – or **external** – those offering independent partnership brokering services.

Established in 2003, the globally recognised **Partnership Brokers Training** builds the practical brokering skills and professional practices necessary to address complex challenges in the partnering process at all phases of a partnership's life cycle.

*"I now have the framework, tools and confidence to address the challenges of a particularly problematic partnership, including an action plan and timelines - excellent!" - Course graduate (Canberra, 2014)*

The Partnership Brokers Training is a **4-day skills training and professional development** that includes:

- A **theoretical framework** for partnership brokering and the importance of good brokering in the development of robust, efficient and innovative partnerships
- Brokering **skills development** in scoping, resource-mapping, facilitation, interest-based negotiation, relationship-management, reaching agreement and reviewing
- Exploration of common partnership **brokering challenges and solutions**
- **Action planning** for individual applications of the lessons from the course

## Training Team

**JULIE MUNDY** is the Director of Training and Regional Development at the Partnership Brokers Association, and a highly experienced independent partnerships specialist. Julie has worked in international development across Asia and Southern Africa for over 20 years, in project and organisational design, management, strategy, leadership and governance. As both, an internal and external partnership broker, she advises across a wide range of sectors, including climate change, health, governance, education and housing. Her recent brokering focus has been complex partnership agreement negotiations between governments, international corporates, and NGOs, conducting reviews of major government/NGO/donor partnerships, as well as designing and conducting partnership training and capacity building programs for a range of agencies. Julie is a PBA Accredited Partnership Broker, a PBA Authorised Practitioner Trainer and Mentor.

**KATE HAYES** is a PBA Authorised Practitioner Trainer and Partnership Broker. Her background is as an independent organisational design, strategy and performance specialist with over twenty years of experience working with universities, Australian Government (Federal and State), and in the community and development sectors across Australia, South Asia, South East Asia and the Pacific. Kate would have previously described her core work as facilitative – seeding strategy, collaboration, community and consensus across ideas, agencies and/or communities. Since her association with the PBA, Kate would now reflect that she has been partnership brokering for many years: both brokering new ways of working together within and across agencies and brokering reframed and/or new entities. Seeing the transformative potential of partnering - founded on the approach and principles promoted by the PBA - Kate is now passionate about actively sharing this way of operating in the world.

## Who should attend and criteria for acceptance

This course is for active partnership practitioners involved in the management and development of multi-stakeholder partnerships who should be able to demonstrate the following:
