

**A 4-day skills development course
for those involved in brokering and managing
multi-stakeholder partnerships**

22 - 25 May 2017, Melbourne, Australia

There is a growing demand in Australia and internationally across all sectors for greater competence in managing the partnering process in multi-stakeholder partnerships **more effectively and efficiently**. This is particularly so with the business, not for profit, government and education sectors increasingly seeking to work together to solve complex social and development problems. This unique and highly sought-after program provides those working in and on partnerships with frameworks, tools, techniques and skills development to build their confidence and competence as partnership brokers.

A **partnership 'broker'** is an **intermediary** building effective and innovative collaboration between partners. Partnership brokers can be either **internal** – responsible for negotiating or managing partnerships on behalf of their organisation – or **external** – those offering independent partnership brokering services.

Established in 2003, the globally recognised **Partnership Brokers Training** builds the practical brokering skills and professional practices necessary to address complex challenges in the partnering process at all phases of a partnership's life cycle.
