

**A 4-day skills development course
for those involved in brokering and managing
multi-stakeholder partnerships**

12 - 15 November 2019, Sydney, Australia

There is a growing demand in Australia and internationally across all sectors for greater competence in managing the partnering process in multi-stakeholder partnerships **more effectively and efficiently**. This is particularly so with the business, not for profit, government and education sectors increasingly seeking to work together to solve complex social and development problems. This unique and highly sought-after program provides those working in and on partnerships with frameworks, tools, techniques and skills development to build their confidence and competence as partnership brokers.

A **partnership 'broker'** is an **intermediary** building effective and innovative collaboration between partners. Partnership brokers can be either **internal** – responsible for negotiating or managing partnerships on behalf of their organisation – or **external** – those offering independent partnership brokering services.

Established in 2003, the globally recognised **Partnership Brokers Training** builds the practical brokering skills and professional practices necessary to address complex challenges in the partnering process at all phases of a partnership's life cycle.

"This course and methodology are game changing. To have the tools to present a new way of working allows the space to do things that have never been done before."
Course graduate (Sydney, 2018)

The Partnership Brokers Training is a **4-day skills training and professional development** that includes:

- A **theoretical framework** for partnership brokering and the importance of good brokering in the development of robust, efficient and innovative partnerships
- Brokering **skills development** in scoping, resource-mapping, facilitation, partnering negotiations, relationship-management, reaching agreement and reviewing
- Exploration of common partnership **brokering challenges**
- **Action planning** for individual applications of the lessons from the course

Training Team

MARCIA DWONCZYK - Marcia brings experience from Australia and overseas to her extensive partnering, community engagement and complex methods work. She has worked as both an internal and external partnership broker across Government, NGO, Education and for profit sectors. Her most recent focus is on building capacity for engaging diverse stakeholders around complex issues and innovative methodologies to monitor impacts. Marcia is a PBA accredited Partnership Broker and Authorised Practitioner Trainer.

KATE HAYES - is a PBA Authorised Practitioner Trainer and Partnership Broker. Her background is as an independent organisational design, strategy and performance specialist with over twenty years of experience working with universities, Australian Government (Federal and State), and in the community and development sectors across Australia, South Asia, South East Asia and the Pacific. Kate would have previously described her core work as facilitative – seeding strategy, collaboration, community and consensus across ideas, agencies and/or communities. Since her association with the PBA, Kate would now reflect that she has been partnership brokering for many years: both brokering new ways of working together within and across agencies and brokering reframed and/or new entities. Seeing the transformative potential of partnering - founded on the approach and principles promoted by the PBA - Kate is now passionate about actively sharing this way of operating in the world.

MARY PICKERING is VP Programs and Partnerships at The Atmospheric Fund (TAF) – an agency supporting innovative approaches to reducing greenhouse gas emissions from cities in the Greater Toronto and Hamilton Area. Mary leads collective impact and partnership development work for TAF and is an Accredited Partnership Broker and a Mentor Associate for the Partnership Brokers Association. Mary co-led the creation of the City of Toronto's long-range carbon reduction plan, TransformTO, which applies multiple lenses to the city's carbon strategy, including public health, local economy and social equity. She is currently co-developing a national strategy to build low-carbon centres in six Canadian cities.
