This 5-day course is for graduates of Partnership Brokers Training, and takes partnership brokering insights and skills to the next level. It is designed to help you build further confidence and competence by:

- Tackling concerns and issues in an effective and transformational way
- Facilitating open (and sometimes difficult) conversations
- Strengthening individual and organisational partnering capacity

Training concept and approach

A basic assumption of the course and, in our view, central to the professional discipline of partnership brokering, is that those operating as partnership brokers need to embody a number of key partnering principles in the way they undertake the role. These include being equitable and transparent, as well as being willing to challenge assumptions, and habitual or unhelpful behaviours.

How can partnership brokers best model such principles and also encourage those they work with to adopt such principles themselves?

A range of sources is referenced in this course including Paolo Freire, Malcolm Knowles, Otto Scharmer and Wilfred Bion. We also consider the value of concepts such as Complexity Theory to enable partnership brokers to know why and when to ‘hold space’ for partners so that solutions can emerge when the time is right.
As with all our flagship Partnership Brokers Training course, we build on evidence and experience from the on-going partnership brokering work of our trainers and other Associates operating in diverse contexts and with different models of partnership.

The course also requires participants to co-work to undertake the detailed planning and delivery of practice sessions and to deepen their capacity to observe, listen, build on feedback and become more adept at responding to the question ‘What is needed now?’ – especially where this may mean challenging partners to bring about necessary change.

The course offers the opportunity for participants to:

- Explore a number of theoretical frameworks that underpin partnership brokering approaches
- Frame interventions in the context of an action learning model
- Consider some key issues in managing group processes
- Deepen skills as facilitator-trainers *
- Strengthen capacity to co-work effectively
- Work on themselves in terms of being ‘alert, prepared and ready’ to meet a range of partnership brokering challenges

*This course is a pre-requisite for anyone interested in becoming an authorised PBA Trainer, Associate or Mentor.

Trainers

**MARCIA DWONCZYK** - Marcia brings experience from Australia and overseas to her extensive partnering, community engagement and complex methods work. She has worked as both an internal and external partnership broker across government, NGO, education and for profit sectors. Her most recent focus is on building capacity for engaging diverse stakeholders around complex issues and innovative methodologies to monitor impacts. Marcia is a PBA Accredited Partnership Broker, Authorised Practitioner Trainer and Accreditation Programme Mentor.

**VICTORIA THOM** – Victoria started her PB journey as an internal broker for World Vision in 2008, building innovative partnerships with government and the for-profit sector. In 2016 she moved to work independently as an external broker advising business, government, non-profit and academia organisations on strategies for social impact and sustainable development. She has extensive local and international experience in negotiating and implementing agreements. Victoria is on the pathway to becoming a PBA Authorised Practitioner Trainer and she is a mentor in the Accreditation Programme.
