Participant Profile

This course is designed for active practitioners involved in the management and development of cross-sectoral, multi-stakeholder partnerships and is not an introductory course. Participants will need to have had some experience working to build effective and innovative collaborations between two or more partners. Past graduates have come from business, the community, government, international development agencies and non-profits working in and across diverse spheres.

The course met my expectations by enabling me to practice skills, learn new tools and activities, and deepen my understanding and framework for partnership brokering. I am better equipped to explain why partnership isn't just working together, and brokering isn't negotiating alone.
